

Pilot Program **Beginner Beekeeper Internship**

OSBA is helping to facilitate a year-long “pilot program” Beginner Beekeeper Internship Class. The class will be on the 1st Saturday of each month, February through November, from 9:00 am till 11:30 am. Each class will consist of two speakers from an Ohio club/association, presenting Zoom PowerPoint webinars. In the last 1/2 hour, participants will have the opportunity to ask questions of seasoned beekeepers.

The internship will break down each beekeeping skill on a month by month schedule as to what the beginner beekeeper should be doing in your apiary. To assist, we will present live/recorded videos to demonstrate step by step procedures. All classes will be recorded and hosted on a private YouTube channel. If a student would miss a live event, they would be able to view these recordings at any time. There will also be a private FaceBook group for class participants, showing all of the active Zoom links, YouTube recordings, and information throughout the year.

The cost for the class will be determined by the participating club for its new beginner classes. Please check your local club for cost information. Participants will also receive a 1-year Membership (valued at \$20.00) to Ohio State Beekeepers Association. You will also have access to register for the monthly Hive Digest and Live Webinar Training series. Registration can only be done through a participating club/association in the program. Please contact your local club for participation & cost information.

If you have any questions, please feel free to contact any of these committee members.
